# Memoire

Ce qui est retenu :

- messages utilisateur
- traces (décisions du système)
- erreurs

Capable de retenir

mais aussi de savoir quand

c'est cohérent

what is her winrate ?

According to the provided context, Jinx's win rate is 51% (0.51).

## Traces et décisions des agents

Planner: persona=MATCHUP, sources=['RAG\_MATCHUP', 'OPGG'], opgg\_intent=analysis

Source RAG: 7 documents (requête: 'How to play the game Jinx?').

Source OPGG (OP.GG OK (lol\_get\_champion\_analysis)).

Synthèse exécutée (persona=MATCHUP).

Valideur: réponse ACCEPTÉE. OK

The response accurately summarizes the game plan, lane positioning, trading patterns, micro-mechanics, champion synergies, weaknesses, and tips for playing Jinx, all of which are supported by the provided context.

Planner: persona=MATCHUP, sources=['RAG\_MATCHUP', 'OPGG'], opgg\_intent=analysis

Source RAG: 7 documents (requête: 'What is Jinx's winrate?').

Source OPGG (OP.GG OK (lol\_get\_champion\_analysis)).

Synthèse exécutée (persona=MATCHUP).

Valideur: réponse ACCEPTÉE. OK

The response correctly quotes the win rate of Jinx from the OPGG data.

Itérations valideur : 1

Das, M., Mandal, S., Roy, P., Roy, A., Mukherjee, A., Mahala, S., & Das, A. (2025). Design and Implementation of Multi-Agent Systems: A Lang Graph-Based Approach. *2025 International Conference on Engineering Innovations and Technologies (ICoEIT)*, 1363-1368.

<https://www.semanticscholar.org/paper/Design-and-Implementation-of-Multi-Agent-Systems%3A-A-Das-Mandal/94eaa4899e1c623e5eeea077df73f8f496066ca4>

# Etapes clés de la conception d'un agent

- Compréhension du problème
- Identification des agents
- Définition des objectifs
- Conception des méthodes de communication et de coordination
- Intègre un système d'auto-amélioration

# Enjeux des Systèmes multi agents

*Préserver un état cohérent dans un système distribué*

- *Scalabilité*
- *Prise de décisions en temps réel*
- *Sécurité et confiance*

# Présentation des différents types d'architectures :

- Hiérarchique
- Réseau
- Supervised-led

# Avantages et inconvénients des designs :

- **Réseau :**
  - + Haut niveau de flexibilité
  - Flux d'exécution non contrôlés
  
- **Superviser :**
  - + Ordre et contrôle lors de la prise de décisions
  - Goulots d'étranglement

The background is a dark, atmospheric illustration from the game League of Legends. It features a large, gnarled tree on the right with a glowing blue spiral in its canopy. In the bottom right, there's a glowing blue flame or portal. In the bottom left, a small figure is visible near a glowing blue stream. In the top right corner, there's a small inset image of a character, likely a champion, sitting at a desk. The overall color palette is dark with blue and yellow highlights.
